International Journal of
Human Factors in Manufacturing

Author Index to Volume 5

Adler, P.S., A Portrait of the Relationship between Mechanization and Work in the U.S. Economy, 345
Alsène, É., The Influence of Technology on the Organization: From Impact to specific Effects and Design Space, 377

Backström, T., A Comparative Study of Occupational Accidents in Industries with Advanced Manufacturing Technology, 267
Beauchamp, Y., A Review of Experimental Studies on Human–Robot System Situations and Their Design Implications, 283
Borys, B., *see* Adler, P.S.

Carayon, P., *see* Smith, M.J.
Chan, H.S., Visual Performance on Detection Tasks with Two Targets, 417
Cheng, O.S., Integrations Safety in Manufacturing Systems, 303
Courtney, A.J., *see* Chan, H.S.

Danek, A.M., Mapping Perceptual and Cognitive Processing for the Effective Use of Graphical Displays in Shop Floor Scheduling Tasks, 401, *see* Duffy, V.
Döös, M., *see* Backström, T.
Draper, J.V., Teleoperators for Advanced Manufacturing: Applications and Human Factors Challenges, 53
Duffy, V., A Predictive Model for the Successful Integration of Concurrent Engineering with People and Organizational Factors: Based on Data of 25 Companies, 429

Franz, H.-W., Do It Right the First Time—Quality as the Crucial Change Agent in the European Steel Industries, 211

Graham, James H., Guest Editorial, 235, Sensory Integration in a Neural Network-Based Robot Safety System, 325, and A Fuzzy Logic Approach for Safety and Collision Avoidance in Robotic Systems, 447
Grosjean, V., Temporal Strategies of Operators Dealing with Numerous Parallel Processes: A Field Study, 123
Grusenmeyer, C., Shared Functional Representation in Cooperative Tasks—The Example of Shift Changeover, 163

Helander, M.G., *see* Prabhu, G.V.
Henning, R.A., *see* Smith, T.J., 29

Järvinen, J., Analysis of Self-Reported Accidents Attributed to Advanced Manufacturing Systems, 251
Jiang, B.C., *see* Cheng, O.S.
Joyce, M., *see* Marcotte, A.J.

Karwowski, W., *see* Järvinen, J.
Kivistö-Rahnasto, J., *see* Mattila, M.
Koubek, R.J., *see* Danek, A.M.

Lessard, J., *see* Alsène, É.

Marcotte, A.J., Computerized Ergonomic Analysis in Manufacturing: A Results-Oriented Approach for the Practitioner, 87
Mattila, M., Fatalities at Advanced Machines and Dangerous Incidents at FMS Implementations, 237
